

Grid Computing Symposium

and High Performance Computing Workshop

Who

- Students and faculty interested in grid computing
- Students who want to report research results based on distributed computing projects
- Faculty mentors who have sponsored student research

When and What

- Friday afternoon, April 13: Grid Computing Symposium featuring Michael Mascagni from Florida State University, Ronald J. Vetter from UNC Wilmington, Barry Wilkinson from UNC Charlotte, and Barry Kurtz, Rahman Tashakkori, and Daren Greene from Appalachian State University
- Friday evening, April 13: Banquet and Distinguished Speaker, Rob Fowler, Director of HPC Research, Renaissance Computing Institute, “Big Grids, Small Grids, Grids All the Time”
- Saturday morning, April 14: HPC Workshop
- Saturday lunch time, April 14: Box lunch and panel discussion
- Saturday afternoon, April 14: Student Research Presentations

Where

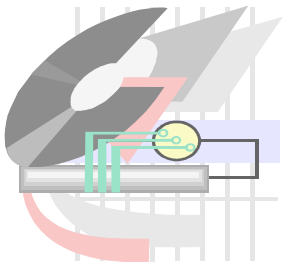

- North Carolina A&T State University, Greensboro, NC
- Sponsored by the Office of the President, University of North Carolina and a FUTURES VENTURE grant, North Carolina A&T State University

How

- Print and fill out form at: <http://www.cs.appstate.edu/nc-hpc/workshop-spring07/>
- Fax the form to 828-262-7000 or email as attachment to blk@cs.appstate.edu or mail it to Barry L. Kurtz, Department of Computer Science, Appalachian State University, Boone, NC 28608
- You will be contacted about details regarding your participation

Symposium and Workshop Organizers

Barry L. Kurtz and Rahman Tashakkori (Appalachian State University)
Yaohang Li (North Carolina A&T State University)

Join the Distributed Computing Revolution
