Introduction

Welcome to the RocFamily Webapp! Thank you for choosing our app developed by Old Dominion University's CS411W Team Red. The purpose of the RocFamily Webapp is to help RocSolid staff members interact and assist impacted kids and the families while they get through this difficult time.

Product Summary

The RocFamily Webapp is divided into two parts and administrator side and a end user side. RocFamily Webapp administrator side is a web-based application that allows RocSolid administrators to register new administrators, add and delete multiple links for Rocfamily Webapp end users, and allow chat functionality with RocFamily end users. The RocFamily Webapp allows insertion and deletion of game links, movie site links, local area deals, local area events, and local establishments to order food.

RocFamily Webapp end user side is a web-based application that allows RocSolid end users to access game links, movie site links, local area deals, local area events, and local establishments to order food. It includes a chat program for Rocsolid end users that allows the users to connect with RocSolid staff members.

Instructions

Home Page

This is where you will start your journey on the home page. You will have many of excellent and exciting options which you can select.

Welcome, Jennifer!

Figure 1. Home Page

Games Page

Everyone loves games. Go ahead and select the one you want to play by clicking the link button.
